MAJOR GRANTS AND PROJECTS

USAID Environmental Law Capacity Building Grant (\$650,000). Furthering a Central American Free Trade Agreement (CAFTA) provision on environmental cooperation, the grant enables environmental law faculty from several U.S. universities to collaborate with counterparts in Nicaragua, Guatemala and the Dominican Republic in the area of environmental law teaching, research, and advocacy. Tulane University is the lead university on the project. The participating faculty members come from Tulane University, Seattle University, University of Miami, University of Florida, University of Connecticut, Pace University, University of Puerto Rico, and Denver University. The grant runs from 2009 through 2012.

Project Team Member, LatCrit Study Space Project (2007-present). Study Space is a series of week-long intensive workshops, held at diverse locations around the world, the goal of which is to acquire a deeper understanding of the legal, policy and human challenges posed by the global growth of mega-cities. Each Study Space results in research that is published in a law review or comparable forum. Study Space I, studying the explosive urban growth in Panama City, Panama, was held in December 2007, and the research papers were published in the *Tennessee Journal of Law & Policy*. Study Space II took place in Bogotá, Colombia in March 2008 on the topic of property, the environment, and cultural diversity in Colombia. The resulting papers were published in the *University of Miami Inter-American Law Review*. Study Space III took place in Denver, Colorado in December 2008. The theme was private and public lands in the post-colonial North American West." The papers will be published in a book. Study Space IV took place in Medellín, Colombia in December 2009. The theme was the use and control of space for social transformation. Study Space V took place in Rio de Janeiro, Brazil in July 2010.
